

**DURING THE PANDEMIC, THEY CALLED US HEROES**

**NOW KP EXECS SAY OUR WAGES ARE TOO HIGH**

During the pandemic, we gave everything we had.

Every day, we went to work and faced death. We risked our lives. We went above and beyond what anyone expected. We slept in our cars and in tents to keep our families safe.

Some of us lost our lives. Throughout, KP remained profitable.

While we were on the frontlines fighting the deadliest pandemic in memory - a small group of KP executives met in secret to conclude our wages are too high.

This goes against everything our Alliance unions, our partnership, and Kaiser Permanente stand for.

We are joining together to take a stand for each other, our patients, and our communities starting Monday, June 28th.
